Old Business

Grocery inspectors went well no issues with Jewel again.

New Business:

We received a complaint from Lenard Z about his muffler replacement done at Tornado and the secondary work done by Judge. When Howard called him, he stated that the muffler was not installed correctly even though the muffler was under warranty he would not return to Tornado for its repair. He stated that Tornado would not help him and they acted like they didn't want to do anything

He then took the car to Judge for the correct repair. Howard talked to Judge, Judge explained that the muffler was a generic and the work was done improperly and he needed to have a completely new exhaust system installed to have a correct repair which included the catalytic converter. Judge confirmed that Tornado did the work half ass.

The exhaust system installed by Tornado was still under warranty "BUT" the previous work that Tornado did would not allow for a correct repair. In short Tornado did a very poor job!

We don't know if there is anything we can do with this complaint.

Meeting started at 7:30 p.m.

Meeting ended: 8:15 p.m.

Next meeting: May 8, 2024 at 7:30 p.m.

Minutes taken by: Lavergne Innocenti, Secretary
