Yard waste pick-up began April 1st and will continue through November 30, 2021. For more information, please visit the City website at www.oak-forest.org.

The sale of vehicle stickers will be carried out in the same manner as last year. Seniors will receive their stickers in the mail. Others purchasing stickers will do so online, by mail, or drop off in City Hall's night depository box.

Mayor Kuspa regrettfully informed the audience that due to the COVID-19 pandemic and the significant escalating costs associated with keeping the Gingerwood Pool open, the pool will be permanently closed. The land will be sold for the development of single-family homes.

Associated with COVID-19, the City is not sponsoring a citywide garage sale this year. The rising number of cases in Illinois along with the need to be in compliance with the Federal and State guidelines are the reasons for this decision.

City Hall does remain open to the public, but face coverings and social distancing are still required. However, the payment of water bills must be done by mail, online at www.oak-forest.org, or dropped in the night depository box.

Mayor Kuspa read a letter from Chicago Gaelic Park thanking the City for moving ahead with this year's Fleadh Family Parade. He added the parade was recorded and can be viewed on the City website by clicking CIC-TV program, or Comcast channel 4, WOW channel 6, and AT & T channel 99.

Construction, to speak. Ms. Bak gave a brief history of her company, and then discussed the building plans.

Ms. Bak introduced Andy Koglin, with OKW Architects, who presented information on the layout of the buildings, landscaping, and other points.

Alderman Hortsman asked if there was an idea of timing for completion. Ms. Bak replied that there are still pre-development negotiations taking place and they would like to begin building and zoning stages concurrently with that. They will be presenting to Planning & Zoning Commission probably by June at the earliest. They would like to start construction before the end of the year.

Alderman Emmett asked if there were any projects they've done in the southland that can be viewed as examples. Ms. Bak said nothing this far south, but there were projects they completed in Frankfort, and are working in Mount Prospect and Libertyville now.

Alderman Selman asked about the retail portion of the development. Ms. Bak said that is what they envision right now. More research needs to be done on what kind of retailer will fit there. An attractive one would be a personal fitness studio or a small gym where the tenants could make use of the facility.

Currently the bid is \$130,000.00. This will be finalized when the IDOT review is received. Staff is recommending the selection of Baxter & Woodman for the project.

Alderman Emmett asked if any of the new sidewalks will be located near the new development, and may potentially be dug up. Director Bandstra believes not.

Finance Director Julian presented the annual Water and Sewer Rate Adjustment Power Point. Oak Forest is getting a 3.3% increase from the City of Chicago and the Village of Oak Lawn. She proposes passing it on as the city can't absorb the costs. She is not proposing an increase to the flat fee or any other infrastructure fees but she does want to begin discussing them because that will be crucial as a funding source for the capital improvement plan. For a reliable, safe water supply, we will have to invest in our infrastructure. At this time, she is proposing a pass-through of costs from our suppliers. Director Julian compiled water rates from fourteen communities and compared our rates with those communities. Director Julian did an average based on the usage, and she converted all billing to quarterly for an apples-to-apples comparison. The Power Point graph showed that for the 5,000-gallon mark Oak Forest was below the average cost; at 20,000 gallons (rough usage for a family of 4) only slightly below average; at 30,000 gallons Oak Forest was slightly above average. A lot of the other communities also have a minimum usage and much higher flat rate than Oak Forest; it is usually identified as their capital improvement-funding source, which she suggests, be done moving forward. If our flat fee is raised from \$15 to \$30 it will generate more than half a million dollars for our capital improvement fund. Director Julian is not proposing that at this time because we don't have the engineering in place to start the sewer and water main lining, but she is doing that study now and the city should be ready to start rolling out water main improvements next summer. If more users come on board, we will have more people sharing the costs, which will lower rates. Cook County purchasing our water as well as increasing the flat fee could be the answer to our capital funding.

12. CITIZENS PARTICIPATION

Kathleen Counter lives at 162nd & Forest near the retention pond. Since the snow melted, more cars have been parking bringing dogs and coolers, and going up the hill. There are two signs that say residential parking only but they are ignored. It started over twenty years ago with the parking, then waking up to trash on the lawns and graffiti on the garage doors, it doesn't happen now but she would like to do something so that it doesn't lead to that again.

Mayor Kuspa told the ladies to give their exact addresses to City Administrator Kristin so the City can come look at the area and maybe assist with signage.

Sandy Vilcak, of 16214 Forest Avenue, stepped forward with the same complaint. She told Council some of the issues they faced last summer. They feel it's not safe to have people going into the woods drinking.

Alderman Simon asked if the parking situation had not been resolved at one time. Ms. Vilcak asked for a sign in the middle of the street. She proceeded to relate that she has a small dog and a lady parked in front of her house with a large pit-bull. She informed the lady it was residential parking and the lady could barely control her dog to get it back into the car. Alderman Simon believes there is an ordinance authorizing the signs, and asked Administrator Kristin to look into that. Administrator Kristin said there is an ordinance that exists for residential parking. He told the ladies the city can enforce the parking ordinances and nuisance ordinances on the street, however when

the people segway into the forest preserve the city loses jurisdiction at the south end of 163rd. He suggested the ladies contact the forest preserve police, and also suggested they talk to the police chief.

Brian Thoma, of 15737 Rob Roy Circle, has been in correspondence with the city trying to get the cul-de-sac paved. He has lived there since 2001, and he and his neighbors do not remember the cul-de-sac ever being paved. He heard his street mentioned earlier by Public Works Director Milanowicz, but was looking for confirmation it will be paved. Director Milanowicz said Rob Roy Circle is on the alternate bid, so it depends on funding for this year. She assured him that streets not done this year would be on the list for sure for next year. She said it will be a 2" ground out with the curb and sidewalk like they've been doing on other MFT projects. Mr. Thoma asked for confirmation on if it will be done this year or next, and Mayor Kuspa answered that until the pricing comes in it's not known for sure. Mr. Thomas asked to be notified if his area will be done when pricing comes in, and offered his email address to Director Milanowicz.

13. OLD BUSINESS

None

14. NEW BUSINESS

Alderman Emmett said residents have been asking for music at the city hall gazebo, and mentioned polka bands and Frank Rossi. Mayor Kuspa is in full agreement, and suggested opening it up to local food vendors, and that Alderman Emmett should work on the entertainment. City Administrator Kristin suggested that is not the best location due to Police and Fire Department traffic. Mayor Kuspa suggested the park district since it has more parking and a gazebo, and the idea is something he would like to explore.
